

MARZIA TARIS

PROFILE

Highly motivated individual with a strong work ethic and problem-solving skills. Passionate about continuous learning and growth, seeking new challenges and opportunities to contribute to a dynamic team.

Graduated from a Web Development course with the ZTM Academy, and looking for a Front-End entry level position.

WORK EXPERIENCE

Sterling DCS - Essex, Uk

November 2023 - June 2024

Junior Data Analyst

As a Junior Data Analyst at Sterling DCS, I collaborated on an EPD dataset project, where I was responsible for matching Environmental Product Declarations and formulas. I supported the marketing and sales teams by creating targeted contact lists and analysing marketing data. Additionally, I worked with a company turnover dataset, extracting and consolidating relevant information using advanced Excel formulas. My role required proficiency in Excel, and I enhanced my skills by completing courses in Python and Excel Power Query. I also have an understanding of Power BI, DAX language, and various AI tools, and I am continuously seeking to expand my technical knowledge. Through my contributions, I demonstrated a strong ability to handle complex data tasks and provide actionable insights to support business objectives.

Saracens Head Hotel - Essex, UK

April 2017 - April 2022

Bar and Assistant Manager

I started at the Saracens Head as a bartender and moved to Assistant Manager with incorporated Bar Manager duties throughout the years I worked in this role. In my first year as supervisor I was responsible for increasing bar sales by 27.7%. During my time there I have created and designed various menus, negotiated new supplier deals and created signature cocktails. Some of my responsibilities included but are not limited to:

- Recruitment
- Training of the staff body
- Hosting 1-2-1 wellbeing staff meetings
- Obtaining new suppliers and negotiating with existing
- Managing a staff rota of 35
- Weekly inventory reports
- Management of the bar sale GP margin
- Hotel reception hosting

Dear Sir/Madam,

I am excited to apply for the Junior Web Developer position at your Company. I am passionate about web development and eager to contribute my skills and dedication to your team.

I have graduated from The Complete Web Developer Course at ZTM Academy, where I gained a comprehensive understanding of both frontend and back-end development. This course has equipped me with knowledge of HTML, CSS, JavaScript, and various frameworks and libraries. I am particularly drawn to the problem-solving and creative aspects of web development, and I am committed to continuously improving my skills.

In addition to my coursework, I have undertaken personal projects that have allowed me to apply my learning in practical scenarios. These projects include developing responsive web pages, creating interactive user interfaces, and working with APIs to integrate dynamic content. Through these experiences, I have developed a solid foundation in web development principles and a keen eye for detail.

My background in data analysis has provided me with a strong analytical mindset and the ability to approach problems methodically. I am confident that my ability to learn quickly and my enthusiasm for web development will enable me to deliver significant contributions to your team. The prospect of joining your esteemed company excites me, and I am eager to bring my technical expertise, creativity, and passion for web development to your organisation.

Thank you for taking the time to review my application. I look forward to the opportunity to discuss how I can add value to your team.

Sincerely,

Marzia Taris
